## Journal

### 2022 EWTA MEDIA KIT

## VALUE PROPOSITION

### Unique Content

The *Engineered Wood Journal* is the only North American trade magazine exclusively for and about the wood structural panel and engineered wood products industry. Drawing upon the knowledge and experience of subject matter experts, it is unique in its coverage of industry trends, issues and developments.

### Target-Rich Readership

The *Journal* is carefully targeted to reach key decision-makers among your customers, including company principals and CEOs, senior executives, mill managers, quality assurance supervisors, technical managers, sales and marketing directors, safety and human resources personnel and others in company leadership positions. The *Journal* also reaches industry product, equipment and service providers, consultants, analysts, academia, industry trade associations and other industry stakeholders.

### Online and Email Distribution

The *Journal* provides a broad reach to your customers as a complimentary digital magazine posted on the EWTA website at [www.engineeredwood.org](http://www.engineeredwood.org), featured in various social media streams and distributed via email to subscribers in North America and beyond. Magazine information with links to articles, the member directory and an advertiser index is distributed at the APA Annual Meeting and at other industry conference and events, such as the Timber Processing & Energy Expo, the Panel & Engineered Lumber International Conference & Expo (PELICE) and others. An advertiser index is included in each issue with links from the advertisement to the company website. Past issues are also posted on the EWTA website. A dedicated Advertisers web page highlights the current advertisers with company information and website links.

### Cost-Effective Messaging

*Engineered Wood Journal* advertising rates are among the lowest in the industry. Combined with the magazine's highly targeted decision-making readership and diverse distribution methods (online and email), the *Journal* provides an extremely cost-effective means to reach key audiences. EWTA members also receive an advertising rate discount (see page 3), yielding an even better return on your advertising investment.

2021 Autumn Issue

## Helpful Staff

Advertisers work directly with EWTA staff, who are committed to member service rather than profit. They help connect and integrate your advertising with other communication channels such as EWTA membership, Info Fair exhibit or sponsorship, the APA Annual Meeting and other industry networking or information exchange opportunities. With our knowledge and expertise, we can help you make the most of your sales, marketing and messaging investments.

## Leveraged Investment

*Journal* revenues provide financial support of EWTA networking events, information exchange activities and essential industry research projects. Advertising in the *Journal* thus serves two important purposes—first, helping you reach key buyers among your existing and prospective customers, and second, supporting EWTA and APA programs and activities of benefit to the entire industry.

## Member Rate Discount

Display advertising rates for members of EWTA are discounted 10%, extending your advertising dollars and improving your return on investment. Combined with all of the other benefits of EWTA membership, the discount provides a powerful economic incentive to join the leading supplier organization of the North American engineered wood products industry.

## Frequency Rate Discount

Advertisers purchasing space for the same advertisement in both the spring and autumn issues of the *Journal* enjoy a 6% frequency rate discount. See page 3 for both one-time and frequency rates.

## Complimentary Membership Directory

Website and email links are included, providing the reader quick access to company information. The addition of a logo is optional. (\$130).
